

NATURE CONNECTS®

Sean Kenney's solo exhibit, now on tour

Nature Connects is an **award-winning, record-breaking** exhibition now touring North America, Asia, and Europe. Created with over **3 million** LEGO pieces, this show features hundreds of sculptures built with LEGO bricks by New York artist Sean Kenney.

與自然的連結
Our connection to Nature

LEGO 的積木不僅是玩具，更是創作的工具。透過這些積木，我們能將自然界的萬物，如花朵、樹木、動物等，一一重現。這不僅展現了積木的無限可能性，更提醒我們，在現代生活中，我們依然需要與自然保持緊密的連結。

Nature Connects is foremost an **educational platform** and secondarily a means of **artistic expression**.

I hope that you can look at Nature Connects and appreciate both nature and the sculptures as something beautiful, and I also hope you're inspired to go home and create something wonderful yourself.

Just as LEGO pieces interconnect, **everything in nature is interconnected** in a delicate balance. Insects and plants have important relationships; different species of animals have special relationships with each other; animals have connections with their families just like we do.

And of course, people have a connection with nature, whether you're trimming a bonsai tree or planting a garden, or anything else: **you are a part of nature.**
